

Tuesday Sept 10 Bike Tour

The Riva del Garda area is known for some superb bicycle trails and an abundance of eBike rentals. Since eBikes cost between 40 and 60 euros for one day and are not rented hourly we would like to plan a whole day with lots of refreshment spots

Our guide will be former Giro d'Italia professional cyclist Denis Bertolini. Denis is a local legend and speaks fluent English. He has guided many tours in the area. Denis stays on protected bicycle trails

We will start in Loppio and make our way around the nature preserve towards Nago and the Chiesa di San Tome for some great panoramas. Then on to Arco and the Roman bridge crossing the Sarca river.

Then down to Riva and some spectacular photo ops !

For safety reasons we will then transport the eBikes and riders to Limone. We will walk our bikes thru Limone and stop for group pictures and shopping. We will ride the “Cyclabile del Garda” trail that is suspended on the side of the mountain overlooking Lake Garda. Prepare for some spectacular views. We will stop at appropriate points for group photos.

Then back on the support vehicle and a safe drive back to Riva where we will pedal to Toborle and Malcesine on the protected bicycle path.

Finally we will make our way back to our starting location of Loppio.

There will be many stops for refreshments, food and awesome pictures. The eBikes have enough power to last the whole day. All you need to do is gentle effortless pedaling ! Lunch and snacks along the way at your expense. [Click here](#) for some videos of past tours. Cost is \$40 USD per person for the day plus the rental cost of the selected eBike. Meet at Loppio (near Mori) 9:00 at the eBike rental (5 minutes from Rovereto Nord exit off autostrada) at 9 am !
